**RE: RECOMMENDATION LETTER: LOGO 3000.**

The above captioned subject matter refers.

Logo 3000 thousand has been and is one vibrant programme in Mambwe District in re-enforcing Literacy and Language teaching and learning to both the teachers and Learners. This programme has been of great help to learners, particularly in the positive progression of reading and writing. At the moment, this programme is being implemented in five schools and the outcome has been very encouraging within the shortest period. A good example of this positive achievement has been:

- A. Above 80% from grade two to four for Uyoba Community School.
- B. Above 68 % from grade two to four for Chiwawatala Primary School.
- C. Above 50 % from grade two to four for Kakumbi Primary School.
- D. An attempt to start the same programme at Mwandakwisano Community and Katemo Primary School. Hope is there that learners in these schools will continue+ do very well in the programme.

I therefore commend this programme and the positive work it is yielding in Mambwe District. Having seen the positive achievements and approaches this programme is yielding in the district, I write to commend the organizers for any funding from any well-wisher, so that it is scaled to a good number of schools in helping many learners to read and write.

Your support will be highly appreciated.
